Figure 1 displays a sequence of 18 diagrams, each representing a state in a system. Each diagram consists of a top triangle and a bottom circle. The triangle contains a horizontal line with a point labeled 'h' and a value. The circle contains a point labeled 'h' and a value. The values change across the diagrams, representing a sequence of states or parameters.

| Diagram | Triangle h | Triangle Value | Circle h | Circle Value |
|---------|------------|----------------|-----------|--------------|
| 1 | h=0.00.00 | 237 | h=0.00.00 | 237 |
| 2 | h=0.00.00 | 237 | h=0.00.00 | 237 |
